PROFESSIONAL SUMMARY

Civil Engineering undergraduate at the University of Nigeria, Nsukka, with foundational knowledge of structural analysis and construction principles. Basically skilled in AutoCAD and ArchiCAD for technical drawing, with working proficiency in Microsoft Office and basic exposure to Python for problem-solving. Seeking a SIWES/Industrial Training placement to gain hands-on site and field experience and contribute to real-world engineering and construction projects.

EDUCATION

B.Eng. Civil Engineering — University of Nigeria, Nsukka (UNN)

2023 – Present

Current Level: 400 Level

CORE SKILLS

- AutoCAD & ArchiCAD — Engineering and technical drawing
- Structural analysis fundamentals (beams and load calculations)
- Microsoft Excel — basic engineering calculations
- Microsoft Word — technical report writing
- Python — basic programming and problem-solving
- Teamwork, collaboration, and event/logistics coordination

PROJECT EXPERIENCE

Academic Engineering Projects

University of Nigeria, Nsukka

- Performed structural calculations for beams and load analysis as part of coursework
- Applied core engineering principles to solve practical design problems
- Produced technical engineering drawings using AutoCAD and ArchiCAD

ALX Technical Learning Programme

- Gained foundational knowledge in Python programming
- Developed structured problem-solving skills and self-directed learning discipline

VOLUNTEER EXPERIENCE

Registration & Logistics Volunteer — Enugu Tech Festival

Feb 2026

- Assisted with participant registration and event coordination
- Supported logistics planning and team operations during the event

CERTIFICATIONS

- ALX Professional Foundations
